New Home Office Account Management Portal (AMP)

The Home Office is making changes on how they engage with and support sponsors, which includes opening up avenues for non-Premium subscribers to be able to request application updates and more.

Account Set-Up/Request

The Home Office has verified that sponsors must complete the table below to request access and establish a user account on the AMP. They should then send this request to the following email address: AMPStudysupport@homeoffice.gov.uk

Organisation name	
Sponsor licence Number	
Forename	
Surname	
Email	

After the Home Office processes their account request, sponsors will receive an email confirmation, this email will contain user and reporting guides to confirm their user consent.

The Home Office provide one important note to emphasise is the necessity for each account to have a distinct superuser and email address. It's crucial to avoid attempts where individuals try to assume multiple superuser roles across different sponsors.

There are two types of AMP Users:
Regular Users – can create and fully interact with all queries, including the downloading of MI reports.

Superusers – have the same permissions as regular Users but in addition, are also responsible for the creation and maintenance* of regular Users on the AMP. There is a limit of 10 Users set by default; this can be increased if there is a business need

**Please be aware that it is the Superusers responsibility to make sure that your User list is maintained. If someone leaves your organisation you will need to deactivate their account to keep them from accessing the information stored within the AMP.*

BSA Group Legal Services Ltd is a company registered in England and Wales.
