Know where every student is, **in real-time.**

The #1 choice for boarding school management

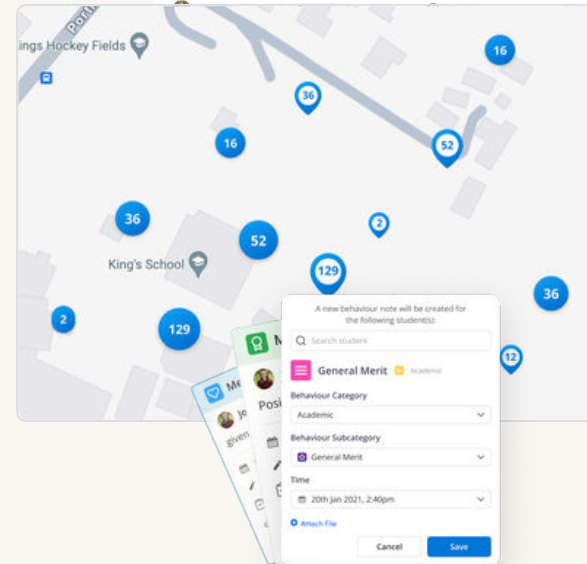

Orah gives boarding schools a clear, up-to-the-minute picture of every student's location. Whether they're on campus, off on leave, or late to check-in.

- ✔ Real-time check-ins for curfew and roll
- ✔ Simple leave requests, approvals and communication tools for parents, staff, and students
- ✔ Emergency rolls that *start* with real-time visibility
- ✔ One place to track movements, notes, passes, and wellbeing concerns + much more.

Ditch the spreadsheets and group texts.
Start making decisions with confidence.

"It's reassuring to know that your duty of care and your student tracking is all in one place. The safety and well-being of our students is always the number one priority. Just to have that security of knowing that the records are there, and they're easy to explore should you need to, gives you an immense sense of reassurance."

- Cranbrook School, NSW

"The big question was, 'How do we proactively identify and support students who are struggling emotionally?' This is where Orah comes in,"

- St Michael's College, Adelaide

"Campus safety loves being able to see, day by day, how many students they anticipate being on campus"

- Phillips Exeter Academy

"The simplicity of the sign in/out process before and after school has been easy. We've had a big push to make sure the girls are being active after school, so they go off to all sorts of places after school and it's super easy for them to sign out so that's greatly increased our accountability while giving them freedom and not treating them like babies."

- Toorak College

"A product such as this is a must. Record keeping for schools is now critical. Being able to quickly look back and see who was at the College at a particular time in history is something that we need to have on hand. Paper stored "somewhere" in a drawer is not really good enough anymore. For the safety of the students, staff and the school, this is a product that is absolutely worth investing in!"

- St Joseph's College, Hunters Hill

Know where every student is, in real time

Get a real-time view of your students on and off campus.

Slash crisis response times

Go into emergencies with real-time location visibility. Because it's built on live attendance data, not static records.

Send omnichannel attendance alerts

Keep staff, students & parents informed with highly customisable attendance notifications.

Automate rolls with student check-ins

Manage student movements on/off campus with NFC & kiosk checkpoints.

Customize Orah to fit your attendance policies

Design your workflows around your attendance policies, not your systems.

Take attendance without breaking the flow

Take attendance on the Orah mobile app or with the Chrome plugin.

Allow parents to submit absences & leave requests

Your school can set rules for which requests are auto-approved, and which require approval. These then show on a teachers' roll call in real time.

Save Attendance Managers one hour every day

Attendance managers using Orah have reported finishing attendance reconciliation one hour earlier every day.

Achieve a 98%+ roll completion rate

With automated smart reminders & easier to use tools, teachers get roll call done faster, more frequently.
